INVESTMENT POLICY & AIMS

Value & Income Trust's ("VIT") policy is to invest in quoted UK equities, UK commercial property and cash or near cash. VIT does not normally invest in overseas shares or unquoted companies.

VIT invests in higher-yielding, less fashionable areas of the UK commercial property and quoted equity markets, particularly in medium and smaller sized companies. VIT aims for long-term real growth in dividends and capital value without undue risk.

DISTRIBUTION OF ASSETS & LIABILITIES

BENCHMARK

The fund is actively managed and is benchmarked against the FTSE All Share Index. The benchmark is a target that the fund seeks to outperform. The index has been chosen as the fund's target benchmark as it best reflects the scope of the fund's investment policy. The benchmark is used solely to measure the fund's performance and does not constrain the fund's portfolio construction.

PROPERTY COMMENTARY

OLIM Property specialise in commercial properties with long, index-related income streams to deliver strong, long-term real returns. VIT's property portfolio produced a total return of 8.0% over the year to March 2019, against 5.5% for the MSCI (formerly IPD) Index, the main benchmark for commercial property performance. The property portfolio is independently valued by Savills at the end of March and September each year; As at 31 March 2020 the total was £70,200,000 up from 29 February 2020 £70,127,000 (All property valuations from end March 2020 until further notice are subject to a Material Uncertainty Clause due to Covid-19).

Running yield: 6.4% (14 rent reviews completed throughout the year since March 2019).

All 26 Properties (28 tenancies): 100% let and on full repairing and insuring leases, with upwards only rent reviews and a weighted average unexpired lease length of 17 years (15 years if the tenants' break options are exercised).

Contracted Index-related income: 86% as at March 2020 up from 79% end of March 2019 (RPI-Linked increases 70%, Fixed increases 16%, open market reviews 14%)

Since the end of December: One new purchase completed for £1,427,000 at yield of 8.8% net of purchase costs and one sale completed for £1,375,000 at a yield of 8.3% net of sale costs.

Sub Sectors: Due to a strategic sales program over the last 10 years the Fund is now no longer invested in high street shops or retail warehouses. Despite the impact of the Covid-19 pandemic and the forced closures of the pubs & leisure sectors on 20 March 2020, 89% of the March quarterly rents (as at 14 April 2020) have been collected or a payment plan agreed.

EQUITY COMMENTARY

March was a bleak month for equity investors as the scale of economic contraction likely to be caused by the lockdown measures to slow the spread of the corona virus Covid-19 became apparent. Economists are expecting the fall in economic activity to be at least double that recorded during the financial crisis in 2008/9. Governments worldwide have responded by implementing vast economic support packages and central banks have also responded by slashing interest rates and reintroducing quantitative easing measures. Despite this the FTSE All Share Index still fell by 15.4% in March.

The fund had a difficult time in March as many of its leisure, cyclical and financial holdings fared poorly in the month and reflecting the general underperformance of mid-cap and higher yielding stocks. The main negative influence on fund performance was stock selection. The portfolio's leisure holdings were particularly hard hit as the Government shut down pubs, cinemas and restaurants with Cineworld (-23% to sale), Restaurant Group (-76% to sale) and Marston's (-54%) all down substantially. Unsurprisingly, better relative performance came from the portfolio's more defensive holdings such as Devro (+6%), Pennon (+6%) and Unilever (-2%). However, these were not enough to offset weakness elsewhere. We have sold those holdings where we feel that any recovery will be protracted and there was a high chance of a dilutive rescue equity raise, namely Cineworld, Restaurant Group and Crest Nicholson.

Towards the end of the month we made some modest purchases of well-financed businesses able to survive the current conditions including Royal Dutch Shell and BHP.
